

# Send an email brochure of your development to registered buyers looking for similar properties

## Increase property views and enquiries

e-Target reaches property hunters who may not yet have seen your development.

## Increase footfall

You choose your send date. Have an open viewing? Why not send your e-Target a few days before the viewing date to generate more interest.

## Showcase your development

e-Target helps your properties stand out as it displays units available, property description and property features.

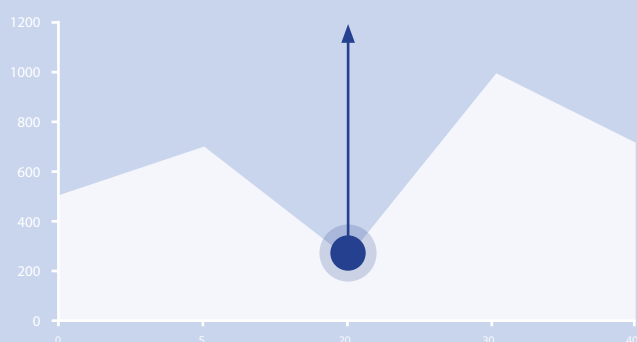

## Promote your brand

Your Logo is prominently displayed at the top and footer of the email, enabling you to promote your brand to a very targeted audience.

The screenshot displays an email brochure for 'Haven Homes'. At the top is a large image of a modern brick house with a dark roof. Below the image are icons for a camera, 23 views, a play button, and a chat icon. The text reads: 'Manor Brook, South End, Dalkey, Co. Dublin', 'A whole new way of living', '2 Property Types From €690,000 New Development'. A section titled 'This development features a property matching your alert' shows three property listings, each with a thumbnail, price, and number of bedrooms. Below this is a 'View all properties' link. The 'Open Viewings' section shows a table with dates and times. At the bottom, there is a 'Interested' section with a 'Description' and 'Features' list. A smartphone in the foreground shows a mobile version of the same email brochure.
